Professional Summary

Cybersecurity graduate and CompTIA Security+ certified, with hands-on experience in web development and a strong foundation in network security, vulnerability assessment, and GRC. Passionate about securing systems and continuously developing cybersecurity expertise.

Professional Experience

Computer Programmer – Geotech Overseas August 2021 – November 2022

- Developed and maintained user interfaces using Angular, improving the overall user experience and application functionality.
- Collaborated with cross-functional teams to design and implement client-specific solutions.
- Applied best practices for code quality, testing, and deployment, ensuring reliable and high-performance applications.

Cooperative Training – King Fahd Medical City August 2020 – December 2020

- Developed a web application using ASP.NET Core with SQL Server for backend database management and CRUD operations.
 - Integrated front-end and back-end technologies to enhance data management and user interactions.
 - Contributed to project documentation, testing, and bug fixing to ensure smooth development cycles.
-

Education

Bachelors in Cybersecurity

Technical and Vocational Training Corporation, 2022 – 2025

Diploma in Computer Programming

Technical and Vocational Training Corporation, 2018 – 2020

Certifications & Licenses

- CompTIA Security+ (SY0-701)
 - Cloud Computing Essentials – Amazon AWS
 - Linux Essentials – Cisco Networking Academy
 - Web Developer Track – Solution Makers Institute
 - Fundamentals of Artificial Intelligence – SDAIA
-

Skills

- **Cybersecurity:** Network Security, Vulnerability Assessment, Threat Analysis, Incident Detection, GRC
- **Programming Languages:** Python, JavaScript, SQL
- **Databases:** SQL Server
- **Cloud Computing:** Fundamentals of AWS and Azure
